TRADEMARK APPLICATION NO. 78394976 - ERIE CITY IRON WORKS - N/A

Page 2 of 5

TO AVOID ABANDONMENT, WE MUST RECEIVE A PROPER RESPONSE TO THIS OFFICE ACTION WITHIN 6 MONTHS OF OUR MAILING OR E-MAILING DATE.

Serial Number 78/394976

Applicant must indicate specifically whether the goods will be manufactured or produced in, or will have any other connection with, the geographic location named in the mark. 37 C.F.R. §2.61(b); TM §1210.03. If the primary significance of a mark is to indicate a geographic location which is neither obscure nor remote and applicant's goods are manufactured or produced in the location indicated, then the public is likely to believe that the geographic term identifies the place from which the goods originate. See *In re Nantucket Allserve, Inc.*, 28 USPQ2d 1144 (TTAB 1993).

Specifically, are the goods manufactured in Erie, Pennsylvania, or the Lake Erie area. Information made of record clearly shows that this geographic area is historically known and continues to be known as a manufacturing center for iron products (see enclosed material).

If the goods originate from this area, registration is refused on the Principal Register on the following basis:

Registration is refused because the mark is primarily geographically descriptive of the origin of applicant's goods and/or services. Trademark Act Section 2(e)(2), 15 U.S.C. §1052(e)(2); TMEP §§1210.01(a) and 1210.04(b).

A three-part test is applied to determine whether a mark is primarily geographically descriptive of the goods and/or services within the meaning of Trademark Act Section 2(e)(2):

- (1) the primary significance of the mark must be geographic, i.e., the mark names a particular geographic place or location;
- (2) purchasers must be likely to make a goods-place or services-place association, i.e., purchasers are likely to think that the goods or services originate in the geographic location identified in the mark; and
- (3) the mark identifies the geographic origin of the goods and/or services.

TMEP §1210.01(a); See *In re MCO Properties, Inc.*, 38 USPQ2d 1154 (TTAB 1995); *In re California Pizza Kitchen*, 10 USPQ2d 1704 (TTAB 1989).

The attached evidence from various websites and geographic gazetteers shows that the primary significance of the term "ERIE" in the mark is the name of a geographic location. Purchasers are likely to believe the goods and/or services will originate in that geographic location because applicant is located there. Thus there is a presumed goods-place association in this case. *In re JT Tobacconists*, 59 USPQ2d 1080 (TTAB 2001); *In re U.S. Cargo, Inc.*, 49 USPQ2d 1702 (TTAB 1998); *In re Carolina Apparel*, 48 USPQ2d 1542 (TTAB 1998); *In re Chalk's International Airlines Inc.*, 21 USPQ2d 1637 (TTAB 1991); *In re California Pizza Kitchen*, 10 USPQ2d 1704 (TTAB 1989); *In re Handler Fenton Westerns, Inc.*, 214 USPQ 848 (TTAB 1982); TMEP §1210.04(b).

The addition of a generic or merely descriptive term to a geographic term does not obviate a determination of geographic descriptiveness. See *In re JT Tobacconists*, 59 USPQ2d 1080 (TTAB 2001); *In re Carolina Apparel*, 48 USPQ2d 1542 (TTAB 1998); *In re Chalk's International Airlines Inc.*, 21 USPQ2d 1637 (TTAB 1991); *In re Wine Society of America Inc.*, 12 USPQ2d 1139 (TTAB 1989); *In re California Pizza Kitchen Inc.*, 10 USPQ2d 1704 (TTAB 1988); *In re Cambridge Digital Systems*, 1 USPQ2d 1659 (TTAB 1986); *In re BankAmerica Corp.*, 231 USPQ 873 (TTAB 1986); *In*

000083

re Application of Handler Fenton Westerns, Inc. 214 USPQ 848 (TTAB 1982); TMEP §1210.07(a).

The addition of the generic term IRON WORKS, identifying a manufacturing center for iron based products, does not alter the primary geographic significance of the term.

When the geographic significance of a term is its primary significance and the geographic place is neither obscure nor remote, the goods/place or services/place association will ordinarily be presumed from the fact that the applicant's goods or services originate in the place named in the mark. *In re JT Tobacconists*, 59 USPQ2d 1080 (TTAB 2001) (MINNESOTA CIGAR COMPANY primarily geographically descriptive of cigars); *In re Chalk's International Airlines Inc.*, 21 USPQ2d 1637 (TTAB 1991) (PARADISE ISLAND AIRLINES held primarily geographically descriptive of the transportation of passengers and goods by air); *In re California Pizza Kitchen Inc.*, 10 USPQ2d 1704 (TTAB 1988) (CALIFORNIA PIZZA KITCHEN held primarily geographically descriptive of restaurant services).

The information made of record clearly indicates that the Erie region is well known, both historically and contemporaneously, for iron manufacturing and such manufacturing facilities. Therefore, the primary significance of the term ERIE CITY IRON WORKS would identify a geographic region noted for iron manufacture.

If the goods do not originate from this locale, registration is refused on the following basis:

Registration is refused because the proposed mark consists of or comprises geographically deceptive and primarily geographically deceptively misdescriptive matter in relation to the identified goods and/or services. 15 U.S.C. §§1052(a) and (e)(3); *In re Les Halles De Paris J.V.*, 334 F.3d 1371, 67 USPQ2d 1539 (Fed. Cir. 2003); *In re California Innovations Inc.*, 329 F.3d 1334, 66 USPQ2d 1853 (Fed. Cir. 2003), *reh'g denied*, 2003 U.S. App. LEXIS 18883 (Fed. Cir. Aug. 20, 2003); *See In re Budge Mfg. Co.*, 857 F.2d 773, 8 USPQ2d 1259 (Fed. Cir. 1988); *In re Perry Mfg. Co.*, 12 USPQ2d 1751 (TTAB 1989).

The primary significance of the term "ERIE CITY" is geographic. The goods and/or services do not originate in this geographic location. The public is likely to believe that applicant's goods and/or services come from this place because such a locale is well known both historically and contemporaneously for iron manufacturing. Furthermore, this belief would materially influence consumers to purchase the goods and/or services because of the quality of the iron work issued from this region. *See In re House of Windsor, Inc.*, 221 USPQ 53 (TTAB 1983), *recon. denied*, 223 USPQ 191 (TTAB 1984).

A mark is geographically deceptive and primarily geographically deceptively misdescriptive if:

- (1) the primary significance of the mark is a generally known geographic location;
- (2) the goods or services for which applicant seeks registration do not originate in the place identified in the mark;
- (3) purchasers would be likely to believe that the goods or services originate in the geographic place named in the mark; and
- (4) the misrepresentation is a material factor in the purchaser's decision to buy the goods or use the services in question.

In re Les Halles De Paris J.V., 334 F.3d 1371, 1373, 67 USPQ2d 1539, 1541 (Fed. Cir. 2003); *In re*

If the applicant chooses to respond to the refusal to register, the applicant must also respond to the following informality.

The applicant must disclaim the descriptive wording "IRON WORKS" apart from the mark as shown. Trademark Act Section 6, 15 U.S.C. §1056; TMEP §§1213 and 1213.03(a). The wording is merely descriptive because it is a generic name for the business of the applicant—manufacture of iron goods

The examining attorney has searched the Office records and has found no similar registered or pending mark which would bar registration under Trademark Act Section 2(d), 15 U.S.C. §1052(d). TMEP §704.02.

To reach the undersigned attorney by telephone after November 2, 2004, please call (571) 272 - 9354. Thank you.
